MIRA CHAT BOT

I'm here to help you with career advice, skill development, opportunities and more.

What would you like to work on today?

integration with LLMs.
- Projects: a mobile career-readiness platform connecting React Native to an ASP.NET Core API, PostgreSQL and n8n workflows; a Java web application using servlets and messaging.
- Constraints: limited professional employment history, a small training budget, 5–8 hours per week for learning, and a preference for realistic free or affordable resources.
- Objective: improve shortlist

MIRA CHAT BOT

I'm here to help you with career advice, skill development, opportunities and more.

What would you like to work on today?

interviews and career development.

Provide a career readiness report, 12-week learning plan, interview question bank, JSON response structure, application strategy and clearly labelled uncertainties.

IMPORTANT: If the input is too large, reject it gracefully. Do not fabricate missing CV, transcript, employment or live vacancy data.

END OF STRESS TEST.

What would you like to work on today?

1. Backend Architecture, Dependency Injection, Authentication and Authorisation

- **Demonstrated competencies:** Partial. You declared C# and ASP.NET Core, and REST APIs. Architecture and auth depth are not explicitly declared.
- **Unverified claims:** ASP.NET Core architecture depth, C# depth, REST API design quality, authentication implementation.
- **Skill gaps:** Dependency injection, authentication, authorisation, roles, claims, JWT/OAuth, refresh tokens, secure storage.
